SUMMARY

Computer Science & Engineering student at Green University of Bangladesh with hands-on experience developing full-stack web applications using Laravel, PHP, React, TypeScript, MySQL, and modern frontend technologies. Passionate about building secure, scalable, and user-friendly applications with clean architecture and responsive design. Experienced in software testing, API integration, and creating business-focused digital solutions.

EDUCATION

Green University of Bangladesh

Bachelor of Science (B.Sc.) in Computer Science & Engineering

Expected Graduation: 2027 (Update if needed)

EXPERIENCE

Software Quality Assurance Intern

9AM Solution

Hybrid Internship

- Performed manual testing for multiple web applications.
- Tested REST APIs using Postman.
- Automated testing using Playwright.
- Conducted performance testing with Apache JMeter.
- Identified, documented, and verified software defects.
- Worked closely with developers in Agile development environments to improve software quality.

PROJECTS

Boutique — Multi-Vendor E-Commerce Platform | Project Focus: Complete multi-vendor online shopping platform with customer, seller, and admin management.

- PHP • Laravel • MySQL • Bootstrap • JavaScript
- Developed a secure full-stack e-commerce platform with authentication and role-based access control.
- Implemented shopping cart, wishlist, checkout, online order processing, order tracking, and customer account management.
- Built a complete admin dashboard to manage products, categories, inventory, customers, sellers, orders, coupons, and customer reviews.
- Integrated inventory management, product reviews, and sales management modules.
- Optimized database queries and reusable Laravel components to improve performance and maintainability.
- Followed Laravel MVC architecture and best practices to build a scalable, secure, and responsive application.

VisiCore — Visitor & Field Operations Management System | Project Focus: Enterprise visitor management and field workforce tracking platform.

- PHP • Laravel • MySQL • Bootstrap • JavaScript
- Designed and developed a complete visitor and field operations management system.
- Implemented visitor registration, digital check-in/check-out, employee field visit management, and customer records.
- Developed GPS-based route tracking, visit duration monitoring, attendance tracking, and visit history.
- Integrated meeting scheduling, meeting minutes, voice notes, speech-to-text summaries, image evidence, and visit reports.

- Built reporting and analytics dashboards to monitor visitor activities, employee performance, and operational insights.
- Designed the application using Laravel MVC architecture with a responsive and user-friendly interface.

Aura Collection — Fashion & Saree E-Commerce Platform | Project Focus: Premium online fashion and saree shopping platform.

- PHP • Laravel • MySQL • Bootstrap • JavaScript
- Developed a modern fashion e-commerce platform focused on premium shopping experiences.
- Implemented product catalog, category management, advanced search, filtering, wishlist, shopping cart, secure checkout, and order management.
- Built a powerful admin panel to manage products, inventory, banners, coupons, customers, orders, and promotional campaigns.
- Designed responsive product pages with image galleries, customer reviews, related products, and promotional sections.
- Improved application performance, security, and maintainability by following Laravel development best practices.

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Vite

Backend: Laravel, Node.js, Express.js

Database: MySQL, MongoDB

Animation & UI: GSAP, Framer Motion, Three.js, React Three Fiber, Drei

Tools: Git, GitHub, Postman, Playwright, JMeter, VS Code

Core Concepts: REST API, Authentication & Authorization, MVC Architecture, Responsive Design, Database Design, Software Testing, Performance Optimization

Full Stack Web Development

Laravel Application Development

React Frontend Development

REST API Integration

Database Design & Management

Responsive UI Development

Software Testing & Debugging

Problem Solving

Team Collaboration

Clean Code & Best Practices

LANGUAGES

Bengali: Native English: Professional Working Proficiency

ADDITIONAL INFORMATION

Passionate about building scalable web applications and business management systems. Strong interest in modern UI/UX, software architecture, and performance optimization. Continuously learning new technologies and best practices in full-stack development. Comfortable working independently as well as in collaborative Agile teams.
